# Hull York Medical School Student Research Conference 2019

The HYMS Student Research Society was pleased to announce the 3<sup>rd</sup> Annual Student Research Society Conference. This year, the conference returned to the Allam Medical Building of the University of Hull. The society hoped to bring together medical students and students from other allied health professions.

The conference consisted of talks given by two keynote speakers, one from a medical and another from a non-medical background, who were experts in their respective fields. In addition to the two lectures, there were also a wide range of topic-based seminars and workshops. These aimed to enable delegates to learn practical skills, try new methods of research, and hear about recent findings in the field.

The conference was free to attend, however, a refundable deposit of £10.00 was required. This was returned to attending delegates at the conference.
