Feedback - April 2018

Glasgow University Clinical Endocrinology and Diabetes Society 2nd Conference

The Glasgow University Clinical Endocrinology and Diabetes Society (GUCEDS) were proud to announce their second undergraduate conference.

Delegates were invited to a range of interesting talks and the opportunity to learn more about different aspects of endocrinology and diabetes. It was an excellent revision tool for those sitting exams at the end of the year, as well as a great addition to delegate's CV.

This conference was pitched at an appropriate level for all undergraduate medical students. There were talks given by true experts in their fields of expertise covering many interesting and important topics in endocrinology, with time for questions and discussion. There were also interactive workshops covering important endocrine emergencies and practical skills that will prove useful in future careers as doctors.

The conference was very good. Everything ran on time. The speakers were very good and gave good talks.

KM
University of Glasgow

The speakers' topics were interesting and suitable for our level.

KU
University of Glasgow

Good.

DC
University of Glasgow

Very well organised, teaching and talks suitable to all levels of students, very relevant.

ME
University of Glasgow

Made very interesting for the topic it was. Glad that there were talks on hormones outside of diabetes e.g. the gender etc, as that's not as widely talked about but is very interesting.

EL
University of Glasgow

Satisfied.

JO
University of Glasgow

Very useful and interesting content, and the conference ran extremely smoothly.

MM

Individual Comments

Very well planned and organised.

WL
University of Glasgow

It was very good and taught extremely well but I felt like it was too complex for my level (2nd year).

NK
University of Glasgow

Good.

IM
University of Glasgow

Very relevant.

SN
University of Glasgow

Very enjoyable, interesting speakers.

KC
University of Glasgow

I found it very informative and a useful conference.

DT
University of Glasgow

Good day filled with very informative talks.

CL
University of Glasgow

Overall the conference was very organised and ran smoothly. There was a good mix of information that we already knew and also new information eg polycystic ovarian syndrome in more detail. The thyroid exam workshop was useful to run over the examination prior to OSCEs and see pictures of what pathology may look like.
