Use of Radiology in General Surgical Emergencies: An Essential Course for Surgical Trainees

This one-day interactive clinical case-based discussion course discussed the optimal role of radiology in the diagnosis and treatment of common emergencies in general surgery. Radiology plays a crucial role in the diagnosis (and decision-making) of a variety of surgical emergencies. This includes acute abdominal emergencies, pelvic injuries, ruptured viscera, polytrauma and vascular conditions. Junior doctors, both in the A&E and in surgical wards, frequently have to deal with the initial aspects of managing surgical emergencies and acutely ill surgical patients. This course intended to equip the surgical trainees with the fundamental yet essential aspects of surgical radiology. It discussed the role of different types of imaging (X-ray, CT, MRI, Angiograms, Single/Double-contrast investigations) with focus on its correct usage in surgical practice. This predominantly tutorial-based course is also suitable for those appearing for either part of the MRCS exam or NTN interviews.

Course Information

Course date:	24th November 2018
Venue:	Postgraduate Centre, Hereford County Hospital, England, UK
Attendance:	9 Delegates
Aimed at:	FY1, FY2, CT1, CT2, ST3, Trust doctors, Non-training SHO level doctors
Course fee:	£80.00

Topics Covered

- o Hernias
- o Upper GI Emergencies
- o Common Hepatobiliary Conditions
- o Acute Abdomen
- o Colonic Emergencies
- o Trauma and Polytrauma

Programme

0845 – 0900	Registration
0900 – 0915	Introduction and Housekeeping
0915 – 1100	Common Cases of Acute Abdomen – Case-Based Discussion and Demonstration of Images

1100 – 1115

Refreshment Break

1115 – 1300	Bowel Problems – Case-Based Discussion and Demonstration of Images
-------------	--

1300 – 1400

Lunch / Question and Answer Session

1400 – 1515	Vascular Trouble – Case-Based Discussion and Demonstration of Images
-------------	--

1515 – 1530

Refreshment Break

1530 – 1630	Surgical Potpourri - Quiz
-------------	---------------------------

1630 – 1700	Feedback and Close
-------------	--------------------

Faculty

Dr Amdad Ahmed, FRCR

Consultant Radiologist

Hereford County Hospital, Hereford

Mr Edmund Leung, DMedSci, MRCS, FRCS

Consultant Colorectal Surgeon

Hereford County Hospital, Hereford

Overall Teaching Feedback

How would you rate the topics covered at the course?

■ Excellent ■ Very Good ■ Good ■ Not Good ■ Poor

Did you gain a better understanding of the essential radiology investigations pertinent to surgery?

■ Most certainly ■ Certainly ■ Probably ■ Unlikely ■ Not at all

How would you rate the radiology topics that were covered at the course?

■ Very relevant ■ Relevant ■ Neutral ■ Little bit relevant ■ Irrelevant

How would you rate the academic standard of the lecturers?

■ Excellent ■ Very Good ■ Good ■ Not Good ■ Poor

How was the general friendliness of the faculty and organisers?

■ Very friendly ■ Friendly ■ Neutral ■ Not very friendly ■ Can't comment

Would you recommend this course to a friend?

■ Most certainly ■ Certainly ■ Probably ■ Unlikely ■ Not at all

Overall Teaching Feedback

Do you think that this course provided good value for money?

■ Most certainly ■ Certainly ■ Probably ■ Unlikely ■ Not at all

Individual Comments

Really useful teaching session and relevant to clinical practice.

SL
Royal Gwent Hospital, Newport

Very good lectures.

DOCTORS ACADEMY

BETTER EDUCATION. BETTER HEALTH.

Doctors Academy is a UK-based International Non-Profit Organisation comprising of doctors, dentists and scientists that undertakes a diverse range of educational activities globally. The aim of the Academy is to disseminate information and exchange medical knowledge between professionals from diverse backgrounds working in a variety of healthcare settings. This is achieved by the provision of a number of attendance courses, publishing house, online resources and international events/ competitions.

Courses (a selection):

Undergraduate:

- Final Year Medicine and Surgical Revision Courses
- Training the Clinical Anatomy Trainer
- Clinical Anatomy as Applied to Trauma and Emergency Medicine
- Surgical Anatomy of Important Operative Procedures
- Future Surgeons: Key Skills (RCSEd delivered)
- Structured Introduction to Surgical Skills

Postgraduate:

- MRCS Part A
- MRCEM Part A
- MRCS Part B OSCE
- DOHNS: Intensive Revision & OSCE
- Intercollegiate Basic Surgical Skills (RCSEd delivered)
- MRCP PACES Part 2
- FRCS (General Surgery) Exit Exam
- Cadaveric Ultrasound-Guided Musculoskeletal Intervention Course
- Ultrasound-Assisted Botulinum Toxin Injection for Neuromuscular Disorders
- Live Advanced Laparoscopic Colorectal Course

Forthcoming key events:

- International Medical Summer School
- International Academic and Research Conference
- World University Anatomy Challenge

Online Revision Resources

DoctorExams consists of 1000s of questions with detailed explanations in MCQ, EMQ, SBA and SAQ formats. Questions are written by the Doctors Academy group of experienced clinicians and clinical academics, with mock exams and feedback on performance included to aid a candidate's focused revision of topics. Based on past exams, these questions are carefully crafted to suit the requirements of undergraduate students & postgraduate trainees undertaking relevant speciality exams.

Resources for:

- Medical Students
- Dental Students
- International Entrance Exams
- MRCS Exams
- General Surgery Exams
- Plastic Surgery Exams
- DOHNS Exams
