

# Crash Course for Orthopaedic On-Calls

Feedback - September 2024

## Crash Course for Orthopaedic On-Calls

This interactive one-day course aimed to equip delegates with the knowledge and skills required of a Day 1 Trauma and Orthopaedic SHO on-call. The course was aimed at Foundation Year Doctors and Core Surgical Trainees in a Trauma and Orthopaedics rotation, as well as early Specialty Trainees in Trauma and Orthopaedics.

Delegates became more confident in managing orthopaedic emergencies and the common orthopaedic presentations that one is likely to encounter whilst on call.

The simulated virtual fracture clinic and highly interactive clinical scenarios enabled delegates to build their own personal toolkit of knowledge and skills to help them thrive during Trauma and Orthopaedic on-calls.
