

## 28<sup>th</sup> Graf Ultrasound (1-day Update Course)

for the Diagnosis and Management of Dysplasia of the Infant Hip

Feedback - July 2021

## 28<sup>th</sup> Graf Ultrasound (1-day Update Course)

for the Diagnosis and Management of Dysplasia of the Infant Hip

This UPDATE course, previously run in Dorchester as the West Dorset Hip Update Course, was led by Professor Reinhard Graf, Professor of Orthopaedics at the University of Graz, Austria.

### Aims and Objectives:

- o To ensure that participants are competent and confident in the technique of hip sonography.
- o To address any pertinent technical or knowledge-related issues that participants are encountering.
- o To discuss in greater depth the clinical and ultrasonic management of children with Developmental Dysplasia of the Hip (previously known as Congenital Dislocation of the Hip) including new developments.

### Course Information

<b>Course Date:</b>	<b>13<sup>th</sup> July 2021</b>
<b>Venue:</b>	<b>Online Course Held Via Zoom</b>
<b>Attendance:</b>	<b>26 Delegates</b>
<b>Aimed at:</b>	<b>Midwives; Obstetric Nurses; Orthopaedic Surgeons; Paediatricians; Paediatric Surgeons; Physiotherapists; Radiographers; Radiologists; Sonographers; Speciality Nurses; Speciality Registrars and Trainees in any of the above disciplines; Surgical or Advanced Care Practitioners.</b>
<b>Course Fee:</b>	<b>£125.00</b>

# Overall Feedback

How was the content of the course?

■ Excellent ■ Good ■ Neutral ■ Fair ■ Poor

How would you rate the general academic standard of the faculty?

■ Excellent ■ Good ■ Neutral ■ Fair ■ Poor

How was the clarity of presentations?

■ Excellent ■ Good ■ Neutral ■ Fair ■ Poor

How do you rate the relevance of the course to your career?

■ Excellent ■ Very Good ■ Good ■ Fair ■ Poor

Anatomy and Ultrasound of a Normal Infant Hip Joint

■ Excellent ■ Good ■ Neutral ■ Fair ■ Poor

Graf Hip Types

■ Excellent ■ Good ■ Neutral ■ Fair ■ Poor

# Overall Feedback

### Measurements and Classifications

### Reporting and Audit

### Early Developmental Dysplasia of the Hip Treatment Based on Graf Method

### Different Ultrasound Techniques

### Developmental Dysplasia of the Hip Screening – Clinical/Selective/Universal

### How would you rate the appropriateness of Zoom for the delivery of this course?

## Overall Feedback

How was the general friendliness of the faculty and organisers?

■ Very friendly ■ Friendly ■ Neutral  
■ Not very friendly ■ Can't comment

Would you recommend this course to a friend?

■ Most certainly ■ Certainly ■ Probably ■ Unlikely ■ Not at all

Do you think that this course provided good value for money?

■ Most certainly ■ Certainly ■ Probably ■ Unlikely ■ Not at all

## Individual Comments

As an update it was excellent on zoom rather than having 6 - 7 hr journey. I had technical issues with the first lecture but good, prompt support from the IT team- this did not resolve the issues but I then swapped to an iPad from a laptop and there were no issues. Well done on a fabulous session.

**CH**

***Queen Elizabeth Hospital King's Lynn NHS Trust, UK***

It was very useful since I am about to start my ultrasound practice. The teaching have me full overview how to use Graf technique.

**JJ**

***University of Pécs, Medical School, Diagnostic Imaging Dept.***

Very good course and would definitely recommend.

**EK**

***Northern Devon Healthcare NHS Trust, UK***

This course was excellent and pitched just right for me. Liked the revision of anatomy, measurements and classification. I also liked the interactive aspect of the course and discussion on the new NIPE guidance was useful. It was very relevant to my career as I am currently the only sonographer doing hip scans at my hospital. I am now going to try and change the image orientation (to AP Hip - machines permitting) so any new trainees will learn this way. Also going to look into purchasing a probe holder.

**JW**

***Scarborough Hospital, Scarborough, UK***

Excellent.

**AT**

***CWM Taf University Health Board, UK***

Very useful and well organised.

**LA**

***Medical Centre d-r Atanasov, Sofia***

Very impressed with the running of a normally very hands on practical course on zoom. Being able to annotate to show anatomical and measuring understanding was excellent in the use of the break out rooms. Thank you for all the effort to still run this update course virtually in difficult times.

**SD**

***Chelsea and Westminster Hospital, London, UK***

I found it to be a very thorough approach to the course from basics to the end. It provided a good understanding of the technique, anatomy classification etc.

**HD**

***LNWUH NHS Trust, UK***

## Individual Comments

An excellent and well presented course especially in the Covid pandemic time. This was a refresher for me after a long time since doing the first course. Very useful for me as I am involved in training students.

**JP**

*Leicester Royal Infirmary, Leicester, UK*

Good course, very useful, The teachers are very understanding and very clear in their concepts.

**MA**

*Hospital Regional Iquique*

I was unsure how well this would work on Zoom but the structure of breaking into smaller groups like the basic course I did 2 years ago worked really well. I was pleasantly surprised and asking everyone to keep their cameras on was a very good idea. Meant people were more focused and engaged.

**CA**

*Ashford & St Peters Hospitals NHS Foundation Trust, UK*

It was a joy to meet with this group of friendly, capable and 'Graf technique enthusiastic' colleagues and together deepen our knowledge.

**MD**

*Diagnostiek voor*

# DOCTORS ACADEMY

BETTER EDUCATION. BETTER HEALTH.

Doctors Academy is a UK-based International Non-Profit Organisation comprising of doctors, dentists and scientists that undertakes a diverse range of educational activities globally. The aim of the Academy is to disseminate information and exchange medical knowledge between professionals from diverse backgrounds working in a variety of healthcare settings. This is achieved by the provision of a number of attendance courses, publishing house, online resources and international events / competitions.

## Courses (a selection):

### Undergraduate:

- Final Year Medicine and Surgical Revision Courses
- Training the Clinical Anatomy Trainer
- Clinical Anatomy as Applied to Trauma and Emergency Medicine
- Surgical Anatomy of Important Operative Procedures
- Future Surgeons: Key Skills (RCSEd delivered)
- Structured Introduction to Surgical Skills

### Postgraduate:

- MRCS Part A
- MRCEM Part A
- MRCS Part B OSCE
- DOHNS: Intensive Revision & OSCE
- Intercollegiate Basic Surgical Skills (RCSEd delivered)
- MRCP PACES Part 2
- FRCS (General Surgery) Exit Exam
- Cadaveric Ultrasound-Guided Musculoskeletal Intervention Course
- Ultrasound-Assisted Botulinum Toxin Injection for Neuromuscular Disorders
- Live Advanced Laparoscopic Colorectal Course

## Forthcoming key events:

- International Medical Summer School
- International Academic and Research Conference
- World University Anatomy Challenge

## Online Revision Resources

DoctorExams consists of 1000s of questions with detailed explanations in MCQ, EMQ, SBA and SAQ formats. Questions are written by the Doctors Academy group of experienced clinicians and clinical academics, with mock exams and feedback on performance included to aid a candidate's focused revision of topics. Based on past exams, these questions are carefully crafted to suit the requirements of undergraduate students & postgraduate trainees undertaking relevant speciality exams.
