IV. MOCK SCENARIOS

The course includes mock scenarios in communication skills and consultation skills to allow attendees to practice in a simulated environment. You will be given the opportunity to practice a communication skills scenario and a consultation skills scenario at the course.

V. GENERAL INFORMATION

• Your camera must be turned **on** for the duration of the course, and you must be visible. If your camera is not turned on or you are not visible, the system will be unable to verify your attendance, and it will remove you from the course. We, therefore, politely suggest that you check that the camera on your device is working prior to the start of the course to ensure that you are able to attend.

• This is an interactive course, and you will be asked to perform mock scenarios. We, therefore, politely request that you test the microphone on your device prior to the course to ensure it is working.

• To eliminate noise disturbance, it is encouraged that you use headphones.

• Please join from a recognisable device that is registered in your name. If your name is not recognised, the system will be unable to verify you, and it will move you from the main session.

• Your internet connection should be stable. An unstable connection will cause Zoom to shut down, which will result in you missing elements of the course.

In the event of any technical issues on the day, please contact us at courses@doctorsacademy.org.uk.

Thank you once again, and we look forward to meeting you.

With very best wishes,
