

# Crash Course for Orthopaedic On-Calls

Feedback - November 2022

## Crash Course for Orthopaedic On-Calls

This interactive one-day course aimed to equip delegates with the knowledge and skills required of a Day 1 Trauma and Orthopaedic SHO on-call. The course was aimed at Foundation Year Doctors and Core Surgical Trainees in a Trauma and Orthopaedics rotation, as well as early Specialty Trainees in Trauma and Orthopaedics.

Delegates became more confident in managing orthopaedic emergencies and the common orthopaedic presentations that one is likely to encounter whilst on call.

The simulated virtual fracture clinic and highly interactive clinical scenarios enabled delegates to build their own personal toolkit of knowledge and skills to help them thrive during Trauma and Orthopaedic on-calls.

## Individual Comments

Excellent course. Very friendly and knowledgeable tutors who knew how to teach. Very approachable and good easily ask questions. Very high yield and useful information given on the day which is very useful practically in day to day practice. Very well and professional run course.

**MA**  
***Manchester Royal Infirmary, Manchester, UK***

Excellent course, very well organised and appropriate content for SHO level.

**KG**  
***Prince Charles Hospital, Wales, UK***

Really well run course, affordable- many courses now are priced too high. Doctors Academy always provide great courses and always have a friendly environment to learn in.

**CJ**  
***The Grange University Hospital, Cwmbran, UK***

Well organised, practical and concise.

**AH**  
***Princess of Wales Hospital, Wales***

Very well organised, great value for money and covered really high yield topics.

**LS**

Very useful.

**AB**  
***Prince Charles Hospital, Wales, UK***

Thoroughly immersive course that really was great preparation for an orthopaedic on call. And amazing value for money, I would thoroughly recommend to anyone doing an orthopaedics job or who wishes for more knowledge about orthopaedics.

**NH**

Great course. Only an F1 but was a great indicator for future T&O jobs.
