CODE RED '19: DECCS Annual Undergraduate Trauma Conference

DECCS Annual Undergraduate Trauma Conference took place on Saturday 9th March 2019 at Ninewells Hospital, Dundee. The theme of this year's event was "Major Trauma and Fire".

It provided the delegates with an insight into major trauma, major incident management and emergency management of burns, enhancing his/her understanding of fundamental aspects pertaining to the area. The day comprised of a series of keynote talks delivered by specialists in the field, as well as three workshops which aimed to allow delegates to develop and consolidate practical skills in areas equated to the management of major incidents.

Course Information

Course Date:	9th March 2019
Venue:	Ninewells Hospital, Dundee
Attendance:	55 Delegates
Aimed at:	Medical Students
Course Fee:	£16.00

Programme

0830 - 0900 Registration

0900 - 0910 Welcome

0910 - 0950 Dr John-Paul Loughrey - The Towering Inferno

0950 - 1030 Mr Bridie Paterson - Major Trauma Management

1030 - 1050

Coffee Break

1050 - 1130 Mr Christopher West - Assessment and Management of Acute Burns

1130 - 1210 Lt Colonel Bryce Randalls - Blast Injuries

1210 - 1300

Lunch

1300 - 1445 Major Trauma Simulation / Practical Skills Workshops

1445 - 1515

Coffee Break

1515 - 1700 Major Trauma Simulation / Practical Skills Workshops

1700 - 1715 Closing

ORGANISING COMMITTEE

Mr Ainslie Taylor
President

Mr Aaron Duff
Vice President

Major Trauma Simulation

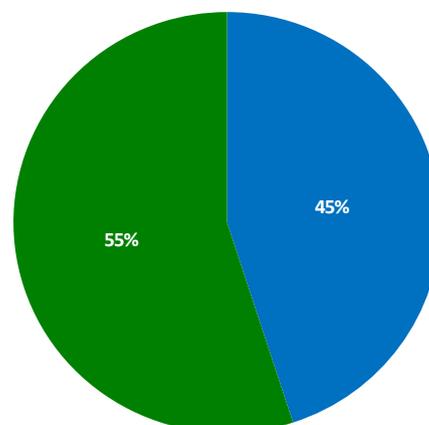

■ Excellent ■ Very good ■ Good ■ Fair ■ Unsatisfactory ■ N/A

How were the facilities and venue?

■ Excellent ■ Good ■ Neutral ■ Fair ■ Poor

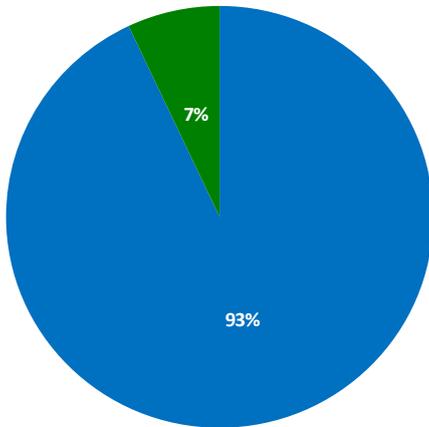

How were the refreshments and lunch?

■ Excellent ■ Good ■ Neutral ■ Fair ■ Poor

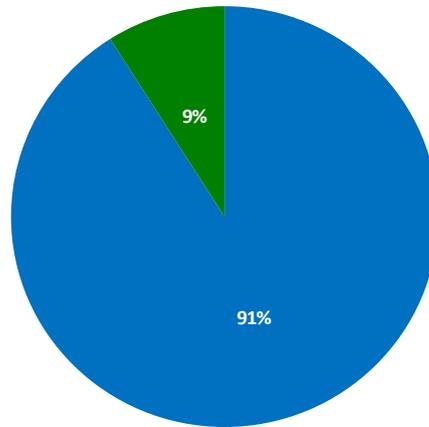

Overall Feedback

How was the general friendliness of the faculty and organisers?

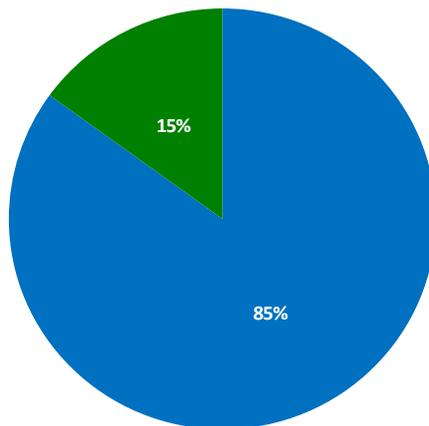

■ Very friendly ■ Friendly ■ Neutral
■ Not very friendly ■ Can't comment

Would you recommend this conference to a friend?

■ Most certainly ■ Certainly ■ Probably ■ Unlikely ■ Not at all

Do you think that this conference provided good value for money?

■ Most certainly ■ Certainly ■ Probably ■ Unlikely ■ Not at all

Individual Comments

This was a brilliant event with interesting and engaging presentations. It was less relevant to my studies, but I learned a great deal of skills I can now apply.

DL

University of Dundee School of Medicine, Dundee, United Kingdom

Overall, it was an amazing experience. Each subject was really interesting and discussed all new content. I had great fun during the major trauma incident.

CF

University of Dundee School of Medicine, Dundee, United Kingdom

I thought it was very well organised and provided a very useful insight into pre-hospital care that's not offered in the standard curriculum.

DP

University of Aberdeen School of Medicine and Dentistry, Aberdeen, United Kingdom

I had a great time. It was really well organised and structured, and I found the presentations to be interesting and engaging. I thoroughly enjoyed the major incident scenario; it was nice to gain experience of managing major/pre-hospital trauma before I potentially have to help with it for real.

TU

University of Dundee School of Medicine, Dundee, United Kingdom

It was very good.

JJ

University of Dundee School of Medicine, Dundee, United Kingdom

This was a fabulous conference; I couldn't recommend it highly enough.

JW

University of Dundee School of Medicine, Dundee, United Kingdom

It was a very informative conference with a good range of speakers. The simulation was a particular highlight.

AF

University of Dundee School of Medicine, Dundee, United Kingdom

It was impressive to witness such a large variation of scenarios on the topic of trauma burns specifically. The organisation of the entire event was incredible and the events of the day flowed very well. Following the teaching, I now feel I am far more confident in my reaction to potential emergencies and, as a first-year medic, this was a massive improvement on thinking about my ABCDEs.

AS

University of Dundee School of Medicine, Dundee, United Kingdom

Individual Comments

It has been a really interesting experience and I learnt a lot about trauma management. The whole conference gave me a lot of insight into things typical textbooks can't cover.

WT

University of Dundee School of Medicine, Dundee, United Kingdom

It was a very good experience.

SK

University of St. Andrews School of Medicine, St. Andrews, United Kingdom

This was an extremely well organised day, with talks aimed at a suitable level. There was a very friendly atmosphere which encouraged me to ask questions and get involved, which I would usually struggle with at University. The simulation was very clever, and I'll definitely be back next year.

CG

University of Dundee School of Medicine, Dundee, United Kingdom

It was very good.

FM

University of Dundee School of Medicine, Dundee, United Kingdom

It reminded me of the basics of ABCDE. It gave me confidence in acute situations, and it helped motivate me towards my goals.

SI

University of Dundee School of Medicine, Dundee, United Kingdom

The teaching was of an excellent standard and there was a good variety of hands on workshops. The major trauma simulation brought together the learning from the morning sessions.

ET

University of Dundee School of Medicine, Dundee, United Kingdom

It was very well organised and professionally executed.

LR

University of Dundee School of Medicine, Dundee, United Kingdom

The conference ran very smoothly, the presentations were informative and interesting, and the major trauma simulation provided a good opportunity to revise ABCDE.

IH

University of Dundee School of Medicine, Dundee, United Kingdom

This was an excellent conference and I truly enjoyed myself.

CB

University of St. Andrews School of Medicine, St. Andrews, United Kingdom

Individual Comments

I wasn't quite sure what to expect, but I genuinely learned a lot and enjoyed it far more than I could have imagined!

MC

University of St. Andrews School of Medicine, St. Andrews, United Kingdom

It was very good, well organised and the content taught was very helpful.

AA

University of Dundee School of Medicine, Dundee, United Kingdom

This was a great day. The only comment would be that some of the workshops in the afternoon weren't really allocated enough time (especially the management of burnt airways).

NT

University of St. Andrews School of Medicine, St. Andrews, United Kingdom

I thought it was fun, well organised and really useful in my medical education.

JJ

University of Dundee School of Medicine, Dundee, United Kingdom

Great.

HB

University of Dundee School of Medicine, Dundee, United Kingdom

Great!

CC

University of Dundee School of Medicine, Dundee, United Kingdom

It was extremely useful for being able to see the application of our studies, as well as to be able to go to a great extent further from them. I loved the teaching and presentation, the conference was well organised, and each consecutive aspect was fascinating, if not more, than the last.

NF

University of Dundee School of Medicine, Dundee, United Kingdom

The event was very organised and the trauma simulation was very realistic and interesting. It was perhaps more difficult for year 1 students to get involved in the simulation as they have less knowledge surrounding trauma medicine.

ES

University of Dundee School of Medicine, Dundee, United Kingdom

Individual Comments

Overall, this was an informative, fun conference. I learned a lot and had a lot of fun, especially in the major trauma simulation!

RC

University of St. Andrews School of Medicine, St. Andrews, United Kingdom

The conference was closely related to the area in which I wish to study in the future. As such, I found it very beneficial to confirm my interests.

ED

University of St. Andrews School of Medicine, St. Andrews, United Kingdom

I loved the simulation sessions.

AM

University of Glasgow School of Medicine, Glasgow, United Kingdom

It was very well organised, engaging and professional.

WO

University of St. Andrews School of Medicine, St. Andrews, United Kingdom

It was very well organized and very professional.

SS

University of St. Andrews School of Medicine, St. Andrews, United Kingdom

While it is not relevant to my current studies, it is definitely relevant when considering whether to take up emergency medicine in the future, and in that sense provided tremendous insight.

JS

University of Dundee School of Medicine, Dundee, United Kingdom

It was very relevant and provided a good insight into emergency medicine.

RG

University of Dundee School of Medicine, Dundee, United Kingdom

I found it to be really interesting and inspiring! It was nice to do something different and to be reminded what we are studying for.

MR

University of Dundee School of Medicine, Dundee, United Kingdom

The simulation was great!

WS

University of Dundee School of Medicine, Dundee, United Kingdom

DOCTORS ACADEMY

BETTER EDUCATION. BETTER HEALTH.

Doctors Academy is a UK-based International Non-Profit Organisation comprising of doctors, dentists and scientists that undertakes a diverse range of educational activities globally. The aim of the Academy is to disseminate information and exchange medical knowledge between professionals from diverse backgrounds working in a variety of healthcare settings. This is achieved by the provision of a number of attendance courses, publishing house, online resources and international events / competitions.

Courses (a selection):

Undergraduate:

- Final Year Medicine and Surgical Revision Courses
- Training the Clinical Anatomy Trainer
- Clinical Anatomy as Applied to Trauma and Emergency Medicine
- Surgical Anatomy of Important Operative Procedures
- Future Surgeons: Key Skills (RCSEd delivered)
- Structured Introduction to Surgical Skills

Postgraduate:

- MRCS Part A
- MRCEM Part A
- MRCS Part B OSCE
- DOHNS: Intensive Revision & OSCE
- Intercollegiate Basic Surgical Skills (RCSEd delivered)
- MRCP PACES Part 2
- FRCS (General Surgery) Exit Exam
- Cadaveric Ultrasound-Guided Musculoskeletal Intervention Course
- Ultrasound-Assisted Botulinum Toxin Injection for Neuromuscular Disorders
- Live Advanced Laparoscopic Colorectal Course

Forthcoming key events:

- International Medical Summer School
- International Academic and Research Conference
- World University Anatomy Challenge

Online Revision Resources

DoctorExams consists of 1000s of questions with detailed explanations in MCQ, EMQ, SBA and SAQ formats. Questions are written by the Doctors Academy group of experienced clinicians and clinical academics, with mock exams and feedback on performance included to aid a candidate's focused revision of topics. Based on past exams, these questions are carefully crafted to suit the requirements of undergraduate students & postgraduate trainees undertaking relevant speciality exams.
