

Annual Meeting
8th - 9th June 2023
London, UK

CALL FOR ABSTRACTS: HERE'S HOW IT WORKS

We cordially invite you to submit your results from science and practice on the following focal topics:

- Research concerning DDH and/or hip ultrasound
- Literature overview
- Regional/country-specific experience with hip ultrasound
- Presentation of field reports / projects
- Free issues related to hip ultrasound

You can submit one or several abstracts (or modify submitted abstracts) until the deadline of 30 April 2023.

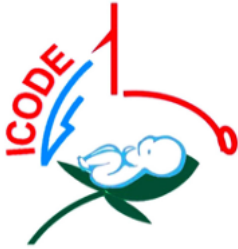

Please use the e-mail: abstract@icode.expert

After successful submission of your abstract you will receive a confirmation email. Please also check your spam folder here.

Details of your abstract

2.000 characters are allowed for the abstract text including references (excluding spaces, author names and titles). There is no additional character buffer and acceptance is only possible up to the 2.000 character limit.

If your abstract contains tables or graphics, you can submit them in .gif or .jpg format. Please do not submit more than 2 graphics to one paper, and do not exceed a storage capacity of 2.000 kB each.

Annual Meeting
8th - 9th June 2023
London, UK

Accepted presentations

Presenting authors will be notified by e-mail by 15 May 2023, whether their abstract has been accepted.

If accepted, they will also be informed which presentation format (lecture or short talk) has been chosen and when the presentation will take place.

Presenting authors will be asked to register for the congress separately.

The time allocation for lectures is usually 15 min. incl. discussion, the time allocation for short talks is usually between 8 and 10 min. incl. discussion. Exceptions to this rule are possible.

We look forward to receiving your numerous and interesting submissions and again a top-class congress.

Yours sincerely,

the ICODE Board and the Organising Committee
