Surgical Anatomy for MRCS OSCE**

Feedback - March 2019

Cardiff MRCS Course (Manchester): Surgical Anatomy for MRCS OSCE

From the providers of the highly acclaimed and prestigious Cardiff MRCS Courses, this intensive one-day revision course intended to help trainees prepare for the surgical anatomy component of the MRCS OSCE exam. This course provided a pertinent yet comprehensive revision of core and applied knowledge in surgical anatomy as tested in the exam. The day covered basic and functional anatomy, relevant pathology, osteology and surface anatomy. In addition to teaching, there were mock and practice OSCE questions throughout the day.

Overall Teaching Feedback

How were the facilities and venue?

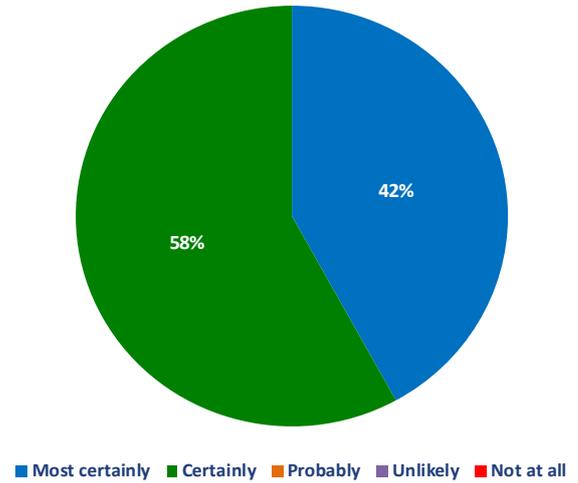

How were the refreshments and lunch?

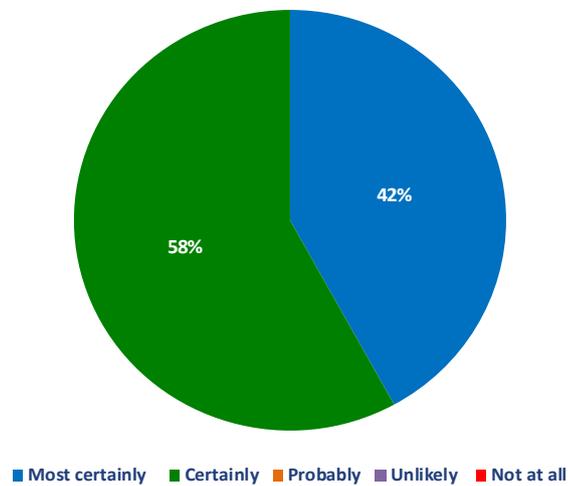

How was the general friendliness of the faculty and organisers?

Would you recommend this course to a friend?

Do you think that this course provided good value for money?

Individual Comments

It was good; it helped me to get a good orientation prior to the exam.

TT

Whiston Hospital, Rainhill, United Kingdom

This was a brilliant course.

GN

Royal Liverpool University Hospital, Liverpool, United Kingdom

Good.

RK

Royal Victoria Hospital, Belfast, Northern Ireland

The course gave a very good impression. It helped me to focus on my weaknesses in certain topics.

AB

Port of Spain General Hospital, Port of Spain, Trinidad and Tobago

I found it helpful to identify any gaps in my knowledge and to apply such knowledge to answer MRCS-style questions.

MW

Musgrove Park Hospital, Taunton, United Kingdom

It was very relevant to the exams.

MB

Jinnah Hospital, Lahore, Pakistan

The teacher was good and easy to understand.

TS

The Children's Hospital at Westmead, Westmead, Australia

DOCTORS ACADEMY

BETTER EDUCATION. BETTER HEALTH.

Doctors Academy is a UK-based International Non-Profit Organisation comprising of doctors, dentists and scientists that undertakes a diverse range of educational activities globally. The aim of the Academy is to disseminate information and exchange medical knowledge between professionals from diverse backgrounds working in a variety of healthcare settings. This is achieved by the provision of a number of attendance courses, publishing house, online resources and international events / competitions.

Courses (a selection):

Undergraduate:

- Final Year Medicine and Surgical Revision Courses
- Training the Clinical Anatomy Trainer
- Clinical Anatomy as Applied to Trauma and Emergency Medicine
- Surgical Anatomy of Important Operative Procedures
- Future Surgeons: Key Skills (RCSEd delivered)
- Structured Introduction to Surgical Skills

Postgraduate:

- MRCS Part A
- MRCEM Part A
- MRCS Part B OSCE
- DOHNS: Intensive Revision & OSCE
- Intercollegiate Basic Surgical Skills (RCSEd delivered)
- MRCP PACES Part 2
- FRCS (General Surgery) Exit Exam
- Cadaveric Ultrasound-Guided Musculoskeletal Intervention Course
- Ultrasound-Assisted Botulinum Toxin Injection for Neuromuscular Disorders
- Live Advanced Laparoscopic Colorectal Course

Forthcoming key events:

- International Medical Summer School
- International Academic and Research Conference
- World University Anatomy Challenge

Online Revision Resources

DoctorExams consists of 1000s of questions with detailed explanations in MCQ, EMQ, SBA and SAQ formats. Questions are written by the Doctors Academy group of experienced clinicians and clinical academics, with mock exams and feedback on performance included to aid a candidate's focused revision of topics. Based on past exams, these questions are carefully crafted to suit the requirements of undergraduate students & postgraduate trainees undertaking relevant speciality exams.
