Intensive Surgical Anatomy Revision for MRCS Part B OSCE

This intensive one-day revision course provided an intense and pertinent revision of all subject areas tested in the MRCS exam to aid in the consolidation of a delegate's core and applied knowledge in anatomy. It also aided the delegate's aptitude to prepare for viva-voce and OSCE stations, with an emphasis on helping delegates deal with viva/OSCE in a systematic manner.

Demonstrations were made using anatomical prosections and cross-sections. Along with small groups tutorials in osteology, topographic and surface anatomy, with the use of radiographs and other relevant imaging to aid understanding.

Individual Comments

The only course i found the most useful and the demonstrators were excellent not rude at all.

RS
Hamad General Hospital , Doha

Well organized.

MH
HUMS, SABAH

Well organised.

LS
John Radcliffe Hospital, Oxford

Excellent course for revision. Although anatomy is a big topic for MRCS, but the course provided great revision that covered most frequently asked topics.

MR
Northern General Hospital, Sheffield

Invaluable teaching and exposure to prosections for the MRCSEd Pat B exam. Fantastic surgeons/ anatomists - questioned in the MRCS style but with feedback throughout.

JR
Arrowe Park Hospital, Wirral

Thoroughly enjoyable, relevant revision course. Great prosections.

JM
Craigavon Area Hospital, Craigavon

Overall good value for money.

FK
Alder Hey hospital, United Kingdom

Good.

XW
