Cardiff MRCS Course: Basic Sciences and Clinical Application for MRCS A

Feedback - July/August 2021

Cardiff MRCS Course: Basic Sciences and Clinical Application for MRCS A

Basic sciences such as anatomy, physiology, pathology and microbiology are the principal components for developing a strong foundation in surgical training and for the understanding of its clinically applied aspects such as surgical anatomy and critical care physiology. As such, these subjects form an integral part in the MRCS A exam.

This intensive three-day course provided the attendee with an overview of basic physiological principles, consolidated the candidate's core and applied surgical knowledge in anatomy and relevant pathology, and provided a focused revision of pertinent topics as tested in the exam. The course took into consideration the recent changes to the MRCS A exam, with more emphasis on basic sciences – especially anatomy.

The course was structured into three distinct, but related, days. On Day 1, the emphasis was on basic and surgically applied anatomy, and relevant system specific pathology. Day 2 predominately covered cancer pathology, microbiology, genetics, statistics, embryology, autonomous nervous system and head & neck anatomy. Day 3 covered trauma, general pathology, benign and malignant tumours, principles of surgery, burns and applied surgical sciences.

It was advised that delegates attended all three days of the course to get the full benefit. However, if they were particularly strong in the topics on any of the three days, the option to attend the individual days of the course was available.

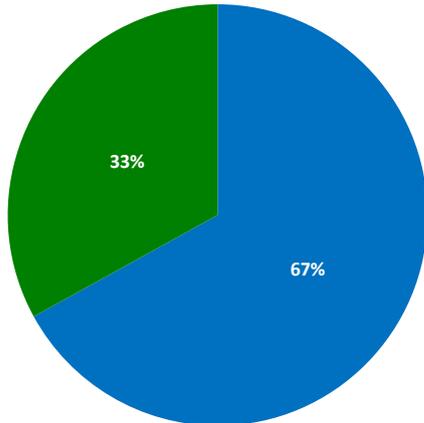

Course Information

Course Date:	30th July, 31st July & 1st August 2021
Venue:	College of Physicians and Surgeons of Cardiff, Frazer Building, 126 Bute Street, Cardiff Bay, Cardiff, CF10 5LE
Attendance:	16 Delegates
Aimed at:	Trainees preparing for the MRCS Part A Examination.
Faculty:	Surgeons
Course Fee:	£375.00

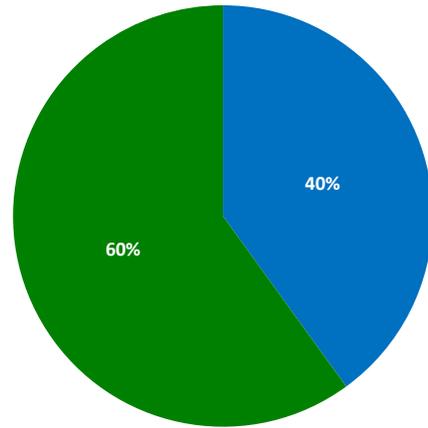

Overall Feedback

How useful were the topics covered during the course?

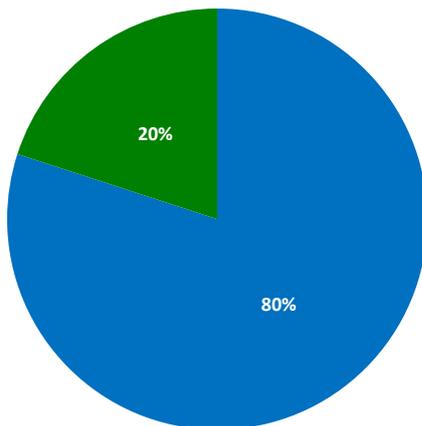

■ Excellent ■ Very Good ■ Good ■ Not Good ■ Poor

Were the topics covered in sufficient detail and depth?

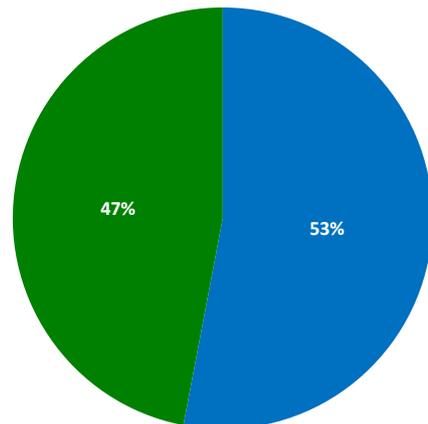

■ Most certainly ■ Certainly ■ Probably ■ Unlikely ■ Not at all

How useful were the eight mock exams discussed during the course?

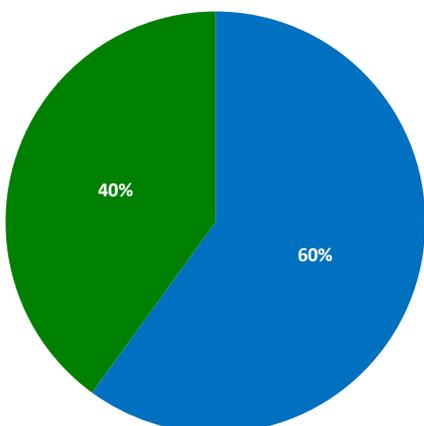

■ Extremely Useful ■ Very Useful ■ Useful
■ Quite Useful ■ Not Useful at all

Was the pattern of the questions discussed during the course reflective of the questions that are normally encountered in the exam?

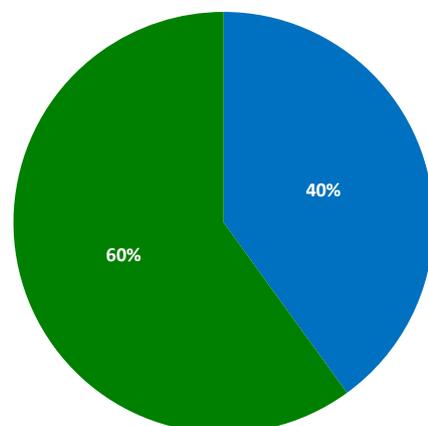

■ Most certainly ■ Certainly ■ Probably ■ Unlikely ■ Not at all

Did the course meet your learning objectives?

■ Most certainly ■ Certainly ■ Probably ■ Unlikely ■ Not at all

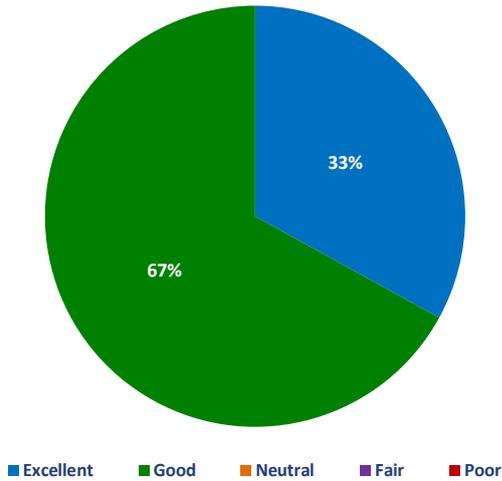

How were the facilities and venue?

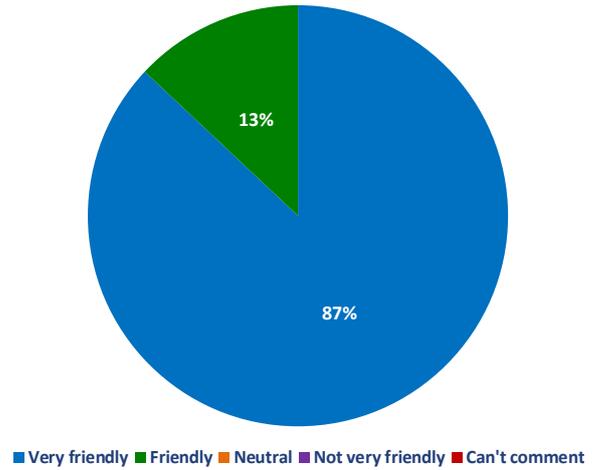

■ Excellent ■ Good ■ Neutral ■ Fair ■ Poor

Overall Feedback

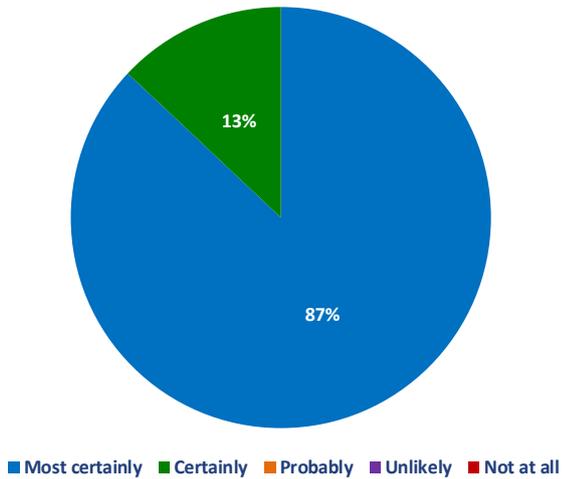

How were the refreshments and lunch?

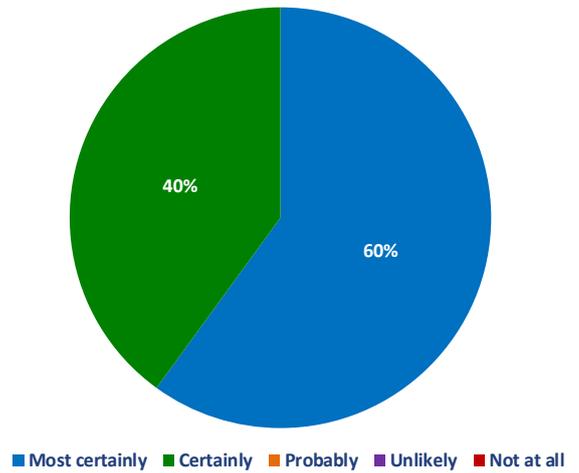

How was the general friendliness of the faculty and organisers?

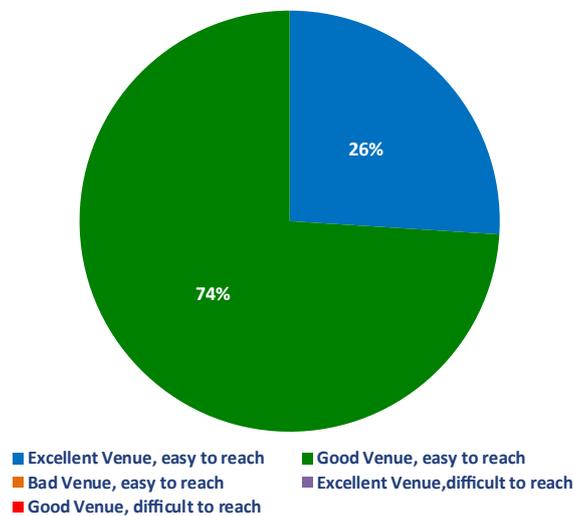

Would you recommend this course to a friend?

Do you think that this course provided good value for money?

What was your impression of the venue?

Individual Comments

Excellent course and amazing tutor.

ZS

Maidstone and Tunbridge Wells NHS Trust, United Kingdom

Excellent course overall, the organisation and the quality of the teaching was remarkable, the density and volume of information feels daunting but there are frequent breaks that make it manageable.

CR

Lewisham and Greenwich NHS Trust, United Kingdom

Very good!

SS

United Lincolnshire Hospitals NHS Trust, United Kingdom

Very impressed with depth of knowledge shown by presenter and well taught.

NK

The London Clinic, London, United Kingdom

Excellent competent teaching with good personalised delivery.

LM

University Hospital of Wales, Wales, UK

Excellent course. Teacher was excellent!

AS

Ysbyty Gwynedd, Bangor, United Kingdom

Very helpful greater teacher.

HH

Conquest

Very good and useful for exam preparation.

SP

West Middlesex University Hospital, Isleworth, United Kingdom

DOCTORS ACADEMY

BETTER EDUCATION. BETTER HEALTH.

Doctors Academy is a UK-based International Non-Profit Organisation comprising of doctors, dentists and scientists that undertakes a diverse range of educational activities globally. The aim of the Academy is to disseminate information and exchange medical knowledge between professionals from diverse backgrounds working in a variety of healthcare settings. This is achieved by the provision of a number of attendance courses, publishing house, online resources and international events / competitions.

Courses (a selection):

Undergraduate:

- Final Year Medicine and Surgical Revision Courses
- Training the Clinical Anatomy Trainer
- Clinical Anatomy as Applied to Trauma and Emergency Medicine
- Surgical Anatomy of Important Operative Procedures
- Future Surgeons: Key Skills (RCSEd delivered)
- Structured Introduction to Surgical Skills

Postgraduate:

- MRCS Part A
- MRCEM Part A
- MRCS Part B OSCE
- DOHNS: Intensive Revision & OSCE
- Intercollegiate Basic Surgical Skills (RCSEd delivered)
- MRCP PACES Part 2
- FRCS (General Surgery) Exit Exam
- Cadaveric Ultrasound-Guided Musculoskeletal Intervention Course
- Ultrasound-Assisted Botulinum Toxin Injection for Neuromuscular Disorders
- Live Advanced Laparoscopic Colorectal Course

Forthcoming key events:

- International Medical Summer School
- International Academic and Research Conference
- World University Anatomy Challenge

Online Revision Resources

DoctorExams consists of 1000s of questions with detailed explanations in MCQ, EMQ, SBA and SAQ formats. Questions are written by the Doctors Academy group of experienced clinicians and clinical academics, with mock exams and feedback on performance included to aid a candidate's focused revision of topics. Based on past exams, these questions are carefully crafted to suit the requirements of undergraduate students & postgraduate trainees undertaking relevant speciality exams.
