

Overview of Vascular Surgery in Clinical Practice

Feedback - February 2021

Overview of Vascular Surgery in Clinical Practice

Vascular conditions and disorders are common presentations in surgical practice. Stenosis or occlusive diseases of peripheral arteries of the lower limb can lead to intermittent claudication and/or rest pain, and stenosis or occlusive diseases of the carotid arteries can result in transient ischaemic attacks or strokes. A ruptured aneurysm of large vessels such as the abdominal aorta can be life-threatening. Likewise, venous disorders can result in venous hypertension, chronic venous insufficiency, varicose veins, and venous ulcers. Both arterial and venous diseases can be debilitating for the patient and result in long-term morbidity. This lecture covered the theoretical principles of the above conditions, examination techniques, and the essential management principles. It was delivered by Mr S. Rajagopalan, Consultant Vascular Surgeon at the Royal Stoke University Hospital and Senior Lecturer at Keele University Medical School. He is also a surgical tutor in the Doctors Academy MRCS and FRCS examination preparation courses.

Course Information

Venue:	Online Teaching Via Zoom
Dates:	3rd February 2021
Attendance:	46 Delegates
Aimed at:	Medical Students (all years); Foundation Year Doctors; Trust Doctors.
Course Fee:	Free

Speaker:

Mr Sriram Rajagopalan, MBBS, MD, FRCS
Consultant Vascular Surgeon
Royal Stoke University Hospital
Senior Lecturer, Keele University Medical School

Overall Feedback

How would you rate the appropriateness of the topic to your studies and/or career?

■ Excellent ■ Good ■ Neutral ■ Fair ■ Poor

How would you rate the expertise of the speaker?

■ Excellent ■ Good ■ Neutral ■ Fair ■ Poor

How would you rate the clarity of the information delivered?

DOCTORS ACADEMY

BETTER EDUCATION. BETTER HEALTH.

Doctors Academy is a UK-based International Non-Profit Organisation comprising of doctors, dentists and scientists that undertakes a diverse range of educational activities globally. The aim of the Academy is to disseminate information and exchange medical knowledge between professionals from diverse backgrounds working in a variety of healthcare settings. This is achieved by the provision of a number of attendance courses, publishing house, online resources and international events / competitions.

Courses (a selection):

Undergraduate:

- Final Year Medicine and Surgical Revision Courses
- Training the Clinical Anatomy Trainer
- Clinical Anatomy as Applied to Trauma and Emergency Medicine
- Surgical Anatomy of Important Operative Procedures
- Future Surgeons: Key Skills (RCSEd delivered)
- Structured Introduction to Surgical Skills

Postgraduate:

- MRCS Part A
- MRCEM Part A
- MRCS Part B OSCE
- DOHNS: Intensive Revision & OSCE
- Intercollegiate Basic Surgical Skills (RCSEd delivered)
- MRCP PACES Part 2
- FRCS (General Surgery) Exit Exam
- Cadaveric Ultrasound-Guided Musculoskeletal Intervention Course
- Ultrasound-Assisted Botulinum Toxin Injection for Neuromuscular Disorders
- Live Advanced Laparoscopic Colorectal Course

Forthcoming key events:

- International Medical Summer School
- International Academic and Research Conference
- World University Anatomy Challenge

Online Revision Resources

DoctorExams consists of 1000s of questions with detailed explanations in MCQ, EMQ, SBA and SAQ formats. Questions are written by the Doctors Academy group of experienced clinicians and clinical academics, with mock exams and feedback on performance included to aid a candidate's focused revision of topics. Based on past exams, these questions are carefully crafted to suit the requirements of undergraduate students & postgraduate trainees undertaking relevant speciality exams.

Resources for:

- Medical Students
- Dental Students
- International Entrance Exams
- MRCS Exams
- General Surgery Exams
- Plastic Surgery Exams
- DOHNS Exams
