Surgical Teaching Series for Progress Tests and Year-End Exams: For Medical Students (all years)

This series of educational talks, which were delivered via Zoom, were aimed at Medical Students preparing for Progress Tests. It enabled attendees to revise in a systematic manner and enhance their confidence in key topics.

Eight sessions were held between December 2021 and April 2022, each of which discussed core surgical topics that are broached in Progress Tests, as well as practice questions. The interactive nature of the teaching allowed attendees to better understand the underlying pathologies and help them to approach the questions that are commonly asked in Progress Tests.

Delegates were able to register for one or more of the sessions. Registration opened at least four weeks before each session was due to take place.
