

**Training The Clinical
Anatomy Trainer - Level 1**

Feedback - November 2016

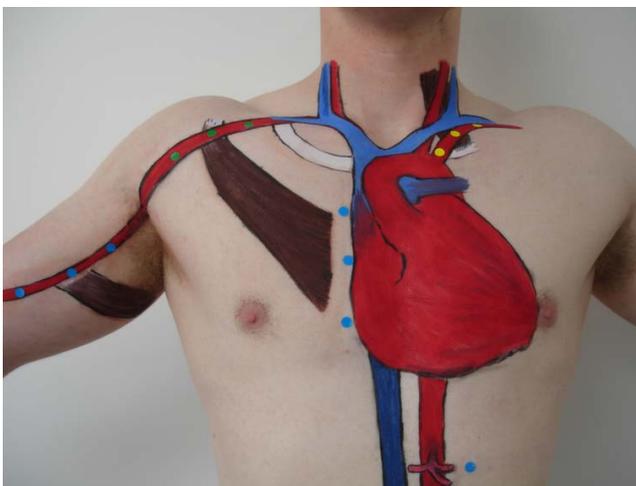

Training The Clinical Anatomy Trainer - Level 1

The aim of this 'Training the Clinical Anatomy Trainer - Level 1' course, which was taught by surgeons, was to provide delegates with a sound understanding of applied clinical anatomy pertinent to senior medical students and foundation doctors. The course was predominantly delivered through surface anatomy demonstration as applied to trauma, assessment of nerve injuries, surgical incisions, and the anatomy encountered during common operative procedures.

The course used imaginative artwork to identify important surface anatomy landmarks pertinent to surgical procedures and trauma. This was complemented by traditional teaching and interactive focus-group workshops which covered the fundamental principles of local and regional anaesthetics, essential concepts in wound healing, and an overview of sutures and suture materials. In order to successfully complete the course, delegates were required to obtain a mark of 70% in the above areas after being formally assessed in the form of spotters and viva-voce. It is hoped that, on completion of this course, delegates gained sufficient knowledge and understanding to teach their juniors in a formal manner. Furthermore, successful candidates were provided with a teaching certificate to validate this.

Course Information

Course date:	20th November 2016
Venue:	Walsall Healthcare NHS Birmingham
Attendance:	47 Delegates
Aimed at:	Medical Students FY1 FY2
Course fee:	£30 Student £55 Doctor

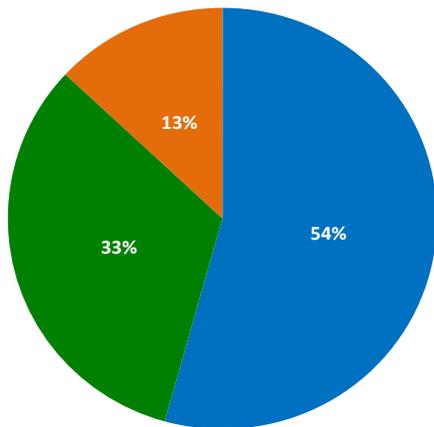

Course Programme

0830 - 0840	Registration
0840 - 0850	Introduction to the course and format
0850 - 0920	Pre-Course Assessment (formative)
0920 - 1030	Upper Limb (Brachial Plexus, Arm, Shoulder, Scapula, Rotator Cuff Cubital Fossa, Forearm)
1030 - 1110	Scalp, Head, Face and Neck
1110 - 1130	Break for Refreshments
1130 - 1150	Lumbar and Lumbosacral Plexus
1150 - 1245	Lower Limb (Femoral Triangle, Thigh, Popliteal Fossa; Lower Leg, Ankle and Foot)
1245 - 1300	Wound Healing and Sutures; Local Anaesthetics
1330 - 1340	Lunch
1340 - 1410	Thoracic Wall, Mediastinum, Heart and Lungs
1410 - 1430	Vascular Anatomy
1430 - 1540	Diaphragm; Transpyloric Plane, Anterior Abdominal Wall and Inguinal Region; Abdominal and Pelvic Anatomy
1540 - 1555	Break for Refreshments
1555 - 1735	Post-Course Assessment and Viva Exam 1555 - 1645 Group 1 - Written Assessment 1555 - 1645 Group 2 - Viva 1645 - 1735 Group 1 - Viva 1645 - 1735 Group 2 - Written Assessment
1735 - 1745	Summary, Feedback and End of Course

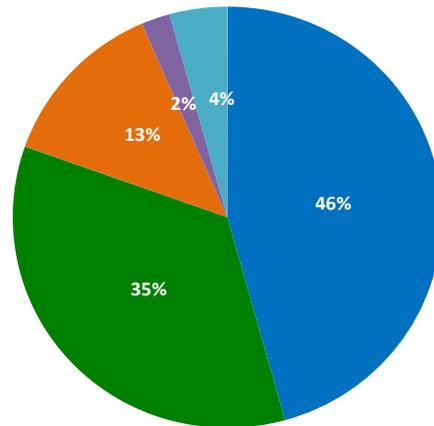

Overall Course Feedback

How was the overall content of the course?

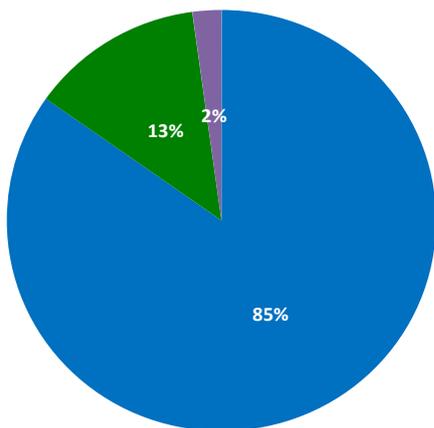

■ Excellent ■ Very Good ■ Good ■ Fair ■ Poor

How was the clarity of demonstrations and presentations?

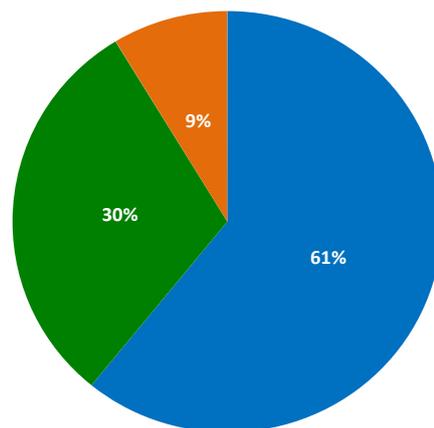

■ Excellent ■ Very Good ■ Good ■ Fair ■ Poor

How would you rate the academic standard and knowledge of the lecturer?

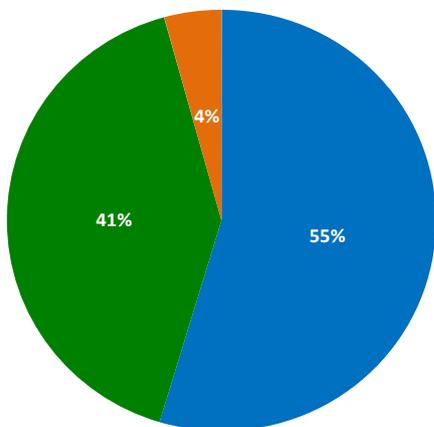

■ Excellent ■ Very Good ■ Good ■ Fair ■ Poor

Do you feel that you enhanced your anatomy knowledge by attending the day?

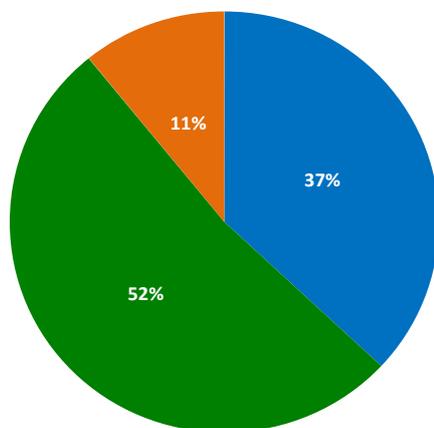

■ Most certainly ■ Certainly ■ Probably ■ A small amount ■ Not at all

Did the course provide you with an overview of anatomy pertinent to your study/work?

■ Most certainly ■ Certainly ■ Probably ■ A small amount ■ Not at all

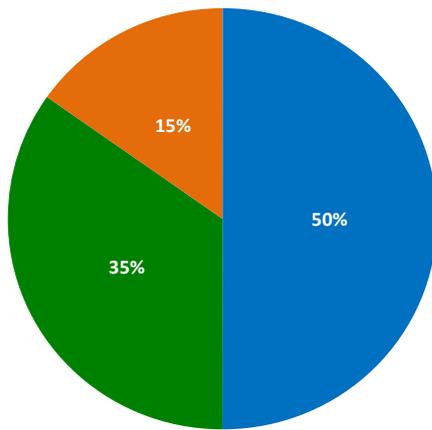

Head and Face

■ Excellent ■ Very Good ■ Neutral ■ Fair ■ Poor

Individual Comments

Very impressed by the course. Well taught and well organised.

NJ
University of Birmingham, United Kingdom

Teaching was very good and in depth.

DJ
University of Birmingham

The teaching faculty were excellent in both their knowledge of the anatomy and ability to teach. It was set at a good level and clinically relevant to my practice.

KM
Royal Liverpool University Hospital, Liverpool

Had a great time, if such a thing can be said for anatomy course at the weekend. The tutor's enthusiasm for anatomy was wonderful and got me to engage.

RF
University of Birmingham, United Kingdom

The course is a fantastic way for medical students to remind themselves of anatomy in the clinical years. The expert's teaching showed enthusiasm which made you want to learn and achieve. The concepts discussed were clinically orientated but perhaps there could have been a more clinically focused approach such as discussing different types of fractures more. The course was very well run from start to finish, with good use of coffee breaks to break up the teaching. We received some great career planning advice around the MRCS exam. It may have been good to hear from the Prof about his career to give an idea about we could become clinical anatomists and achieve his level of knowledge one day.

AT
University of Birmingham, United Kingdom

The teacher had an incredible amount of knowledge and started out the day with a great amount of detail.

RK
University of Manchester, United Kingdom

Overall good. Ran smoothly.

MK
University of Birmingham, United Kingdom

Good and useful. Thank you.

FA
Pilgrim Hospital, Boston

Individual Comments

Very well organized. Excellent teaching covering a vast amount of material. Great pre-reading material. Examinations were difficult although good practice for future post-grad examinations. Course was relevant to my studies and was a useful aid to my learning as anatomy was somewhat neglected at my medical school.

NW

University of Manchester, United Kingdom

I was happy with the overall teaching and the relevance of the course. It was useful.

AN

University of Manchester, United Kingdom

Awesome.

AK

Whiston Hospital, Prescot

Very well organised and structured in good venue with knowledgeable anatomists that wanted you to learn.

LC

University of Birmingham, United Kingdom

Really good worthwhile day.

SV

University of Manchester, United Kingdom

The course was very comprehensive and covered all the aspects relevant to my studies.

BB

University of Birmingham, United Kingdom

It was very well organised. The lecturer delivered clear presentations via a number of different teaching methods and managed to cover a lot of material in a very short space of time.

SR

University of Birmingham, United Kingdom

A great course that refreshes your basic clinical anatomy for postgraduate exams.

AP

Lincoln County Hospital, Lincoln

Individual Comments

I think the teacher was very good! He explained concepts in a level of detail which was appropriate and it was easy to follow. Definitely relevant to my work and I've already started to feel the effects!

JY

University of Birmingham, United Kingdom

Very well structured course with sufficient detail. Very useful anatomy revision for my level of study (medical student).

LA

University of Birmingham, United Kingdom

Content of the course was amazing; my university doesn't have formal anatomy teaching, so this was an absolute God send, and the structure of the day was well planned and laid out.

AM

University of Manchester, United Kingdom

Very good overview of human anatomy in a day.

SB

University of Birmingham, United Kingdom

Good to jump start MRCS revision.

FY

Whiston Hospital, Prescot

Good organisation and running of the course. Tutor was very knowledgeable and helpful. Good day overall.

RK

University of Manchester, United Kingdom

I thought the course was good.

CW

University of Bristol, United Kingdom

Great course for a refresher of clinically important anatomy.

BS

University of Manchester, United Kingdom

The examinations were very helpful tests, challenged me to study for MRCS A exam.

EI

Scunthorpe General Hospital

Individual Comments

Very well organised and staff were kind, approachable and most importantly knowledgeable.

MA

University of Birmingham, United Kingdom

Well-organised.

RK

University of Manchester, United Kingdom

Excellent lecturer! Can't be better.

AI

University of Manchester, United Kingdom

DOCTORS ACADEMY

BETTER EDUCATION. BETTER HEALTH.

Doctors Academy is a UK-based International Non-Profit Organisation comprising of doctors, dentists and scientists that undertakes a diverse range of educational activities globally. The aim of the Academy is to disseminate information and exchange medical knowledge between professionals from diverse backgrounds working in a variety of healthcare settings. This is achieved by the provision of a number of attendance courses, publishing house, online resources and international events/ competitions.

Courses (a selection):

Undergraduate:

- Final Year Medicine and Surgical Revision Courses
- Training the Clinical Anatomy Trainer
- Clinical Anatomy as Applied to Trauma and Emergency Medicine
- Surgical Anatomy of Important Operative Procedures
- Future Surgeons: Key Skills (RCSEd delivered)
- Structured Introduction to Surgical Skills

Postgraduate:

- MRCS Part A
- MRCEM Part A
- MRCS Part B OSCE
- DOHNS: Intensive Revision & OSCE
- Intercollegiate Basic Surgical Skills (RCSEd delivered)
- MRCP PACES Part 2
- FRCS (General Surgery) Exit Exam
- Cadaveric Ultrasound-Guided Musculoskeletal Intervention Course
- Ultrasound-Assisted Botulinum Toxin Injection for Neuromuscular Disorders
- Live Advanced Laparoscopic Colorectal Course

Forthcoming key events:

- **International Medical Summer School**
Manchester, 31st July to 4th August 2017
- **International Academic and Research Conference**
Manchester, 5th August 2017
- **World University Anatomy Challenge**
Manchester, 4th August 2017

Online Revision Resources

DoctorExams consists of 1000s of questions with detailed explanations in MCQ, EMQ, SBA and SAQ formats. Questions are written by the Doctors Academy group of experienced clinicians and clinical academics, with mock exams and feedback on performance included to aid a candidate's focused revision of topics. Based on past exams, these questions are carefully crafted to suit the requirements of undergraduate students & postgraduate trainees undertaking relevant speciality exams.
